### **QUESTION 2/VRAAG 2**

### 2.1 **NOTE/LET WEL**

- -1 mark for each key word/phrase omitted in the correct context.
- -1 punt vir elke sleutel woord/frase in die korrekte konteks weggelaat.

The word "resultant/net force" has to be mentioned at least once

Die woord "resultante/netto krag" moet ten minste een keer genoem word

When a (non-zero) resultant/net force acts on an object, the object will accelerate in the direction of the force with an acceleration that is directly proportional to the force  $\checkmark$  and inversely proportional to the mass of the object.  $\checkmark$ 

Wanneer 'n (nie-nul) resultante/netto krag op 'n voorwerp inwerk, sal die voorwerp in die rigting van die krag versnel teen 'n <u>versnelling wat direk eweredig is aan die krag en omgekeerd eweredig aan die massa van die voorwerp.</u>

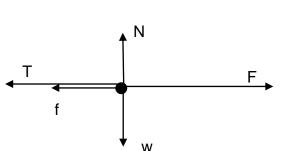

### OR/OF

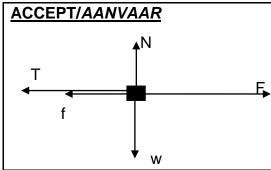

The (non-zero) resultant/net force acting on an object is <u>equal to the rate of change of momentum of the object</u> in the direction of the resultant/net force.  $\checkmark \checkmark$ 

Die (nie-nul) resultante/netto krag wat op 'n voorwerp inwerk <u>is gelyk aan die tempo van verandering van momentum van die voorwerp</u> in die rigting van die resultante/netto krag.

### **QUESTION 10/VRAAG 10**

As the <u>wavelength</u> of the incident radiation/light <u>increases</u> the maximum <u>kinetic energy of the emitted electrons decreases</u>.  $\checkmark\checkmark$  | Soos die <u>golflengte</u> van die invallende straling/lig <u>toeneem</u> <u>verminder die</u> maksimum kinetiese energie van die vrygestelde elektrone.

### OR/OF

As the <u>wavelength</u> of the incident radiation/light <u>decreases</u> the maximum kinetic energy of the emitted electrons increases. /

Soos die <u>golflengte</u> van die invallende straling/lig <u>afneem</u> <u>vermeerder die</u> maksimum kinetiese energie van die vrygestelde elektrone.

### OR/OF

The maximum kinetic energy is <u>inversely proportional</u> to the wavelength./ Die maksimum kinetiese energie is omgekeerd eweredig aan die golflengte.

### OR/OF

$$E_{k(max)} \alpha \frac{1}{\lambda}$$
